### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: claims 23-29 drawn to the non-elected invention have been cancelled. Election was made without traverse during a telephone conversation with the examiner on 3-3-4 and Mr. Allen agreed to cancel claims 23-29 on 3-8-04.

The title has been changed to read ---A method of applying a peel-off protective layer---

### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: a method of applying a peel-off protective layer to a surface as claimed is not taught or fairly suggested by the prior art. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### RESTRICTION

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 30-42, drawn to a method, classified in class 427, subclass <sup>10</sup>~~421~~.

- II. Claims 23-29, drawn to an apparatus, classified in class 118, subclass 300.

The inventions are distinct, each from the other because:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus could be used for cleaning.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

During a telephone conversation with Mr. William R. Allen on 3-3-04 a provisional election was made without traverse to prosecute the invention of I, claims 30-42. Claims 23-29 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.
